## OBJECTIVE

I am passionate about teaching. I am currently pursuing a degree of biology education. I want to make a difference in the lives of the future generations. I believe that by being a positive role model and a person who believes in a student, I can impact that person's life for the better. I plan to stay in the area after graduation to teach biology.

## RELEVANT EXPERIENCE

### Practicum II

Fall 2022

I am in the process of completing 45 hrs of classroom observation as well as teaching 4 lessons at Legacy High. I have created and taught 2 lessons, with hands on activities and student collaboration.

### Peer Tutor and Learning Assistant

2022

I tutor students in chemistry and biology and assist the chemistry prof in creating curriculum and making pedagogical decisions.

### Substitute Teaching

2022

I substitute taught at MPS and BPS and made sure that students were still learning while their teachers were gone while working on my classroom management skills.

### Practicum I

Spring 2022

I completed 45 hrs of classroom observation hours and taught two lessons at Mandan Middle School and learned the importance of relationships in teaching young students and managing behaviors in the classroom.

### Covid Academy

2020

I worked for the Benefis temporary daycare for the children of the staff at the hospital after the schools were moved online during the shutdown. I provided one-on-one tutoring as well as instruction in a classroom-like setting for art and music.
